**SECTION 1: IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND OF THE COMPANY/UNDERTAKING**

### 1.1 Product identifier

**Trade name**
- UPM Formi HP 20, 30, 40, 50, 58
- UPM Formi SP 20, 30, 40, 50
- UPM Formi EFP 20, 30, 40, 50
- UPM Formi EXP 20, 30, 40, 50

**Company product code**
Cellulose fibre plastic composite granulates.

**Reach registration number**
Not registered.

### 1.2 Relevant identified uses of the substance or mixture and uses advised against

**Uses of the chemical**
It is used for the production of injection moulding and extrusion products.

<table>
<thead>

### 1.4 Emergency telephone number

Poison Information centre (in Finland), open 24 h daily
PL 790 (Tukholmankatu 17)
00029 HUS

tel. +358 9 471977 or +358 9 4711

**SECTION 2: HAZARDS IDENTIFICATION**

### 2.1 Classification of the substance or mixture

In accordance with current regulations (1272/2008 CLP), this substance is not classified as dangerous. Classification according to 67/548/EEC-1999/45/EC: no classification.

### 2.2 Label elements

No labelling: in accordance with current regulations, this substance has not been classified as dangerous.

### 2.3 Other hazards
SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

The product contains 20-60% cellulose (CAS 9004-34-6), 40–80% polypropylene (CAS 9003-07-0), <5% carboxylated polypropylene (Maleic anhydride, CAS number 25722-45-6) and 0-10% other additives. Moisture <0.5%.

SECTION 4: FIRST AID MEASURES

4.1 Description of first aid measures

- **Inhalation:** Move to fresh air. Get medical attention if symptoms appear.
- **Skin contact:** Wash with water. Get medical attention if irritation occurs.
- **Eye contact:** Rinse with plenty of water for several minutes. Get medical attention if irritation occurs.
- **Ingestion:** Rinse mouth with plenty of water. By ingestion of large quantities endeavour to vomit. Get medical attention if symptoms appear.

4.2 Most important symptoms and effects, both acute and delayed

- **Eye contact:** Mechanical irritation possible.

4.3 Indication of any immediate medical attention and special treatment needed

No special treatment needed.

SECTION 5: FIREFIGHTING MEASURES

5.1 Extinguishing media

- Water spray, foam, carbon dioxide

5.2 Special hazards arising from the substance or mixture

The product itself is non-flammable. If dried, flammable organic dust may form. The product is a solid mixture of cellulose fibres, plastic and additives, that will burn if ignited or in contact with intense heat. Auto-ignition is possible several hours after processing if the material is not cooled down properly. Dust may be generated during processing. Dust is combustible and may be explosive in the presence of a spark or other ignition sources.

5.3 Advice for firefighters

In large fires or in confined areas, use appropriate protective equipment and a self-contained breathing apparatus.

SECTION 6: ACCIDENTAL RELEASE MEASURES

6.1 Personal precautions, protective equipment and emergency procedures

- Handle carefully to avoid dust formation. Remove all ignition sources. Dust filters are recommended.

6.2 Environmental precautions

- Minimize contamination of drains, surface and ground waters.

6.3 Methods and material for containment and cleaning up

- Use appropriate tools to collect the product for disposal. Flush the area with water.

6.4 Reference to other sections

- Personal protection equipment: see Section 8.2
- Disposal: see Section 13
SECTION 7: HANDLING AND STORAGE

7.1 Precautions for safe handling
Avoid dust formation. Avoid breathing of dust.

7.2 Conditions for safe storage, including any incompatibilities
Storage in dry, cool and well-ventilated place protected from direct sunlight and away from highly flammable substances / materials.
No legal demands concerning storage.

7.3 Specific end use(s)
Not reported.

SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION

8.1 Control parameters

National occupational exposure limit values
Organic dust: HTP 5 mg/m$^3$ (8 h) ja 10 mg/m$^3$ (15 min).

Other limit values
UK (TWA): 10 mg/m$^3$ (total inhalable dust), 4 mg/m$^3$ (respirable dust)

DNEL
The product contains no hazardous ingredients.

PNEC
The product contains no hazardous ingredients.

8.2 Exposure controls

Appropriate engineering controls
Keep containers tightly closed and away from ignition sources and heat.

Eye/face protection
Normally not needed. In dusty conditions, use eye protection.

Skin protection
Normally not needed.

Hand protection
Normally not needed.

Respiratory protection
Normally not needed.

Thermal hazards
The product itself is stable and non-flammable. If dried, flammable organic dust may form.

Environmental exposure controls
Prevent large amounts from entering sewers or environment.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 Information on basic physical and chemical properties

<table>
<thead>
<tr>
<th>Property</th>

<tr>
<td>Odour</td>
<td>mild wood odour or odourless</td>
</tr>
<tr>
<td>Odour threshold</td>
<td>Not applicable.</td>
</tr>
<tr>
<td>pH</td>
<td>Not applicable.</td>
</tr>
<tr>
<td>Melting point</td>
<td>130-170 ºC</td>
</tr>
</tbody>
</table>
Initial boiling point and boiling range | Not applicable.
---|---
Flash point | Not applicable.
Evaporation rate | Unknown
Flammability (solid, gas) | Non-flammable when moist.
Upper/lower flammability or explosive limits | Not applicable.
Vapour pressure | Not applicable.
Vapour density | Not applicable.
Relative density | Unknown.
Solubility(ies) | Insoluble in alcohols, diethyl ether, acetone, etc.
Partition coefficient: n-octanol/water | Not applicable.
Auto-ignition temperature | Approximately 180 °C
Decomposition temperature | Unknown
Viscosity | Not applicable.
Explosive properties | Dust may be explosive in the presence of ignition sources.
Oxidising properties | Not oxidising

**SECTION 10: STABILITY AND REACTIVITY**

10.1 Reactivity
Not reactive under normal use and storage conditions.

10.2 Chemical stability
The product is stable.

10.3 Possibility of hazardous reactions
No hazardous reactions under normal use and storage conditions.

10.4 Conditions to avoid
Keep away from ignition sources and heat.

10.5 Incompatible materials
None.

10.6 Hazardous decomposition products
Burning may produce toxic gases e.g. carbon monoxide.

**SECTION 11: TOXICOLOGICAL INFORMATION**

11.1 Information on toxicological effects

Acute toxicity
There is no toxicological data available for this specific product: The product is not classified as acute toxic.

Skin corrosion/irritation
The product is not classified as a corrosive or irritant.

Serious eye damage/irritation
The product is not classified irritant or hazardous for eye.

Respiratory or skin sensitisation
The product is not classified as a sensitive.
Germ cell mutagenicity
The product is not classified as a mutagen.

Carcinogenicity
The product is not classified as a carcinogen.

Reproductive toxicity
The product is not classified as a reproductive toxicant.

STOT-single exposure
The product is not classified as toxic to specific target organs.

STOT-repeated exposure
The product is not classified as toxic to specific target organs.

Aspiration hazard
The product is not classified as causing aspiration toxicity.

Other information

SECTION 12: ECOLOGICAL INFORMATION

12.1 Toxicity
There is no ecotoxicological data available for this specific product. The product is not classified as dangerous for environment.

12.2 Persistence and degradability
Hardly biodegradable in soil based on information from similar products. Chemical degradation produces carbon oxides (CO, CO2) and water.

12.3 Bioaccumulative potential
No bioaccumulative potential.

12.4 Mobility in soil
Partly insoluble in water.

12.5 Results of PBT and vPvB assessment
Hardly biodegradable, thus not considered to fulfill criteria for PBT or vPvB substances.

12.6 Other adverse effects
Not reported.

SECTION 13: DISPOSAL CONSIDERATIONS

13.1 Waste treatment methods
Disposal according to current national and local official regulations.

SECTION 14: TRANSPORT INFORMATION

14.1 UN number
Not classified for transportation.

14.2 UN proper shipping name
Not applicable.

14.3 Transport hazard class(es)
Not applicable.

14.4 Packing group
Not applicable.

14.5 Environmental hazards
Prevent large amounts from entering sewers or waterways.
14.6 Special precautions for user
Keep away from ignition sources and heat.

14.7 Transport in bulk according to Annex II of MARPOL73/78 and the IBC Code
Not applicable

SECTION 15: REGULATORY INFORMATION

15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture
No specific regulations.

15.2 Chemical safety assessment
Not registered and no chemical safety assessment performed.

SECTION 16: OTHER INFORMATION
